

JAYA PRAKASH V

Frontend Developer | React.js | MERN Stack Developer | JavaScript Developer

Namakkal, Tamil Nadu | +91 94437 06900 | jayaprakash944370@gmail.com | linkedin.com/in/jaya-prakash-000736207 | github.com/jayaprakash305

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with hands-on experience building scalable web applications using React.js, JavaScript (ES6+), and the MERN Stack (MongoDB, Express.js, React, Node.js). Proficient in REST API integration, JWT authentication, responsive UI development, and role-based access control. Currently developing a real-time Movie Ticket Booking System at Nithra Apps. Prior professional experience in technical support and data management roles, including CEPS Agent at AlldigiTech Limited, with expertise in troubleshooting, team coaching, performance reporting, and Microsoft Excel-based data operations. Passionate about delivering high-performance, user-centric web applications.

TECHNICAL SKILLS

Frontend Development :	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Design
Backend Development :	Node.js, Express.js, REST API Development, MVC Architecture
Database :	MongoDB, Database Design
Authentication & Security :	JWT Authentication, Role-Based Access Control (RBAC)
Microsoft Excel :	VLOOKUP, Pivot Tables, Charts, Data Reporting, Data Validation, Performance Reports
Developer Tools :	Git, GitHub, Postman, Visual Studio Code
Core Concepts :	Web Development, Component Architecture, Performance Optimization, API Integration

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

Nithra Apps, Tamil Nadu | February 2026 – Present

- Developed a scalable full-stack MERN Stack web application for a real-time movie ticket booking platform.
- Designed and implemented fully responsive UI using React.js and Tailwind CSS, ensuring cross-device compatibility.
- Integrated RESTful APIs for real-time seat availability, booking management, and dynamic data updates.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) for user, admin, and partner roles.
- Built real-time seat locking mechanism to eliminate duplicate bookings and improve booking reliability.
- Optimized frontend performance through code splitting, lazy loading, and reusable component architecture.
- Collaborated with cross-functional teams to design and deliver modular, maintainable React components.

Consumer Electronics Product Specialized (CEPS) Agent

AlldigiTech Limited | July 2024 – September 2025

- Monitored and analyzed agent calls to ensure accurate troubleshooting and process adherence.
- Provided coaching and feedback to agents to improve technical performance and customer handling.
- Conducted technical training sessions to reduce NPU (No Parts Usage) and improve resolution quality.
- Tracked and analyzed performance and NPU reports to identify trends and areas of improvement.
- Previously worked as Level One AV Agent (9 months), handling Television and Soundbar technical support and gaining strong domain expertise.

Multi-Tasking Agent (MTA)

AlldigiTech Limited | 3 Months

- Executed client-based data projects with timely and accurate delivery.
- Managed and validated data using Microsoft Excel to ensure quality and compliance.
- Utilized Excel features including VLOOKUP, Pivot Tables, and Charts for data analysis and reporting.

PROJECTS

Movie Ticket Booking System

MERN Stack (MongoDB, Express.js, React.js, Node.js) | Full-Stack Web Application

- Architected and built a full-stack MERN application with separate dashboards for user, admin, and partner roles.
- Engineered a real-time seat locking mechanism using Node.js and MongoDB to prevent duplicate bookings.

- Implemented secure JWT-based authentication and granular role-based access control across all user types.
- Designed fully responsive UI with React.js and Tailwind CSS for optimal usability across all devices.
- Integrated backend RESTful APIs using Express.js for seamless data communication.
- Managed structured application data using MongoDB with efficient schema design for bookings, seats, and users.

EDUCATION

B.E. – Computer Science and Engineering | CGPA: 79%

Al-Ameen Engineering College, Tamil Nadu

CERTIFICATIONS

- Python for Everybody – Coursera (University of Michigan)
