Namakkal, Tamil Nadu | +91 94437 06900 | jayaprakash944370@gmail.com | linkedin.com/in/jaya-prakash-000736207

PROFESSIONAL SUMMARY

Results-driven IT Customer Service Associate with 1+ year of experience in technical support, customer query resolution, escalation handling, and SLA compliance in a high-volume BPO environment. Proven ability to diagnose, troubleshoot, and resolve incidents and service requests via multiple channels including chat, email, and voice. Skilled in CRM tools, Microsoft Excel, and documenting service desk interactions with accuracy. Strong written and spoken English communication with a typing speed of 35+ WPM at 90%+ accuracy. Experienced in following standard operating procedures, managing unplanned service interruptions, and restoring normal service operations quickly. Willing to work US shifts in a 24/7 rotational shift environment. Domain knowledge in consumer electronics technical support with transferable skills for US customer service and telecom industry support.

PROFESSIONAL EXPERIENCE

Level 2 – CEPS Agent (Consumer Electronics Product Specialist)

Jul 2024 – Sep 2025

Alldigi Tech Limited

Service Desk Support | Quality Monitoring | MIS Reporting

- Managed and resolved customer queries related to consumer electronics products, handling escalations and complaints from dissatisfied customers and delivering best resolutions within defined SLAs.
- Recorded, diagnosed, troubleshooted, and resolved incidents and service requests based on defined scope of support using CRM tools and designated tracking software.
- Monitored agent interactions to ensure compliance with process standards, quality benchmarks, and SLA closure timelines; escalated unresolved or high-risk cases to supervisors promptly.
- Prepared MIS reports tracking agent KPIs, resolution rates, fault closure rates, and operational metrics — distributed to management for performance review.
- Created and maintained self-help knowledge base documents and SOPs to reduce repeat queries and improve first-contact resolution rate across the team.
- Provided structured coaching and feedback to agents on troubleshooting techniques, customer handling, probing skills, and empathy-driven communication.
- Conducted technical training sessions to enhance team competency and reduce NPU (No Parts Usage), directly improving resolution quality and customer satisfaction scores.
- Collaborated with team leads to analyze call/chat trends, identify recurring issues, and implement corrective action plans aligned with client SLA requirements.

Level 1 – AV Support Agent

Within Above Tenure (9 Months)

Alldigi Tech Limited

Inbound Customer Support – Television & Soundbar | Non-Voice & Voice Channels

- Handled inbound customer queries via telephone and email for Television and Soundbar products, delivering first-call/first-contact resolution with high customer satisfaction scores.
- Recorded all pertinent customer identification information, issue descriptions, troubleshooting steps taken, and resolution outcomes in the CRM tracking system accurately.
- Followed standard processes and knowledge base guidelines to resolve service requests within SLA timelines; escalated complaints and unresolved incidents to team leaders as per escalation matrix.
- Offered alternative solutions to customers to retain business and resolve dissatisfaction — demonstrating retention and customer-centric communication skills.

- Managed unplanned service interruptions by quickly diagnosing issues, following defined resolution paths, and restoring normal service operations with minimal delay.
- Maintained strong comprehension and analytical skills to understand customer needs and provide solutions based on account analysis and product knowledge.
- Made scheduled follow-up callbacks to confirm issue resolution and ensure full SLA compliance, recording customer feedback accurately post-interaction.

Multi-Tasking Agent (MTA) **Alldigi Tech Limited**

Within Above Tenure (3 Months)

Data Management & Client Operations

- Managed and validated client datasets using Microsoft Excel, ensuring data quality, accuracy, and compliance with client specifications.
- Coordinated between teams for smooth data handover, maintaining clear documentation and meeting project deadlines consistently.
- Executed client-based data projects with multi-tool usage — demonstrating the ability to multitask and work with multiple platforms simultaneously.

Frontend Developer Intern **Nithra Apps, Tamil Nadu**

Feb 2026 – Present

- Developing a full-stack MERN application with real-time data, REST APIs, and role-based dashboards — reinforcing analytical thinking and multi-tool proficiency.
- Documenting technical architecture, API contracts, and feature specifications — demonstrating strong written English and technical documentation skills.
